AEDC Domains	Movement Monkeys Fulfilment
<p>1. Physical health and wellbeing Children’s physical readiness for the school day, physical independence, and gross and fine motor skills</p>	<p>MMA develops hand, foot and eye coordination in Kindy aged children through play-based learning. With this increased coordination through a variety of games, children’s physical independence in and out the home increases. Partnered with a focus in gross and fine motor skill practices, children also discover new and improved ways to interact with their world.</p>
<p>2. Social competence Children’s overall social competence, responsibility and respect, approach to learning and readiness to explore new things.</p>	<p>MMA provides children with the opportunity to learn from and teach each other through a variety of communication methods and scaffolded learning experiences. Our coaches allow children to develop a healthy relationship and respect for themselves and each other that intertwines their play experiences with their natural curiosity that creates a life-long love for learning.</p>
<p>3. Emotional maturity Children’s prosocial and helping behaviours, and absence of anxious and fearful behaviour, aggressive behaviour and hyperactivity and inattention.</p>	<p>MMA’s program, developed to allow for all learners to shine, allows children to work together, or by themselves, in order to solve problems and complete objectives while fostering patience and the ability to learn through making mistakes.</p>
<p>4. Language and cognitive skills (School based)</p>	<p>MMA’s variety of play-based learning tasks focus on developing a love for learning in alignment with the Prep curriculum. Children will have the opportunity to develop a</p>

<p>Children’s basic literacy, interest in literacy, numeracy and memory, advanced literacy and basic numeracy.</p>	<p>knowledge in sight words, number recognition, letter sounds and many other skills that will instil confidence through their entire educational journeys for years to come.</p>
<p>5. Communication skills and general knowledge Children’s communication skills and general knowledge base on broad developmental competencies and skills measured in the school context.</p>	<p>MMA allows the opportunity for children to communicate with each other in a variety of ways to achieve a common goal, while developing their understanding of the world around them. This includes developing competencies that are measured in a school context and improve confidence in their own ability to learn and grow with patience and self-assuredness.</p>
